

CRETE CLEAN *plus* WITH SCAR GUARD

INDEPENDENT CLEANING TEST TRIALS

Cleaning test trials conducted in coordination with a large janitorial supply company, a cleaning team, and a chemist.

Notice here **3** distinct areas of concrete surfaces: 1) **No treatment, bare concrete**; 2) **Diamond impregnated pads, no densifier**; 3) **Densified-polished concrete**.

After 10 washings with CreteClean Plus with Scar Guard, there is already significant improvement in the floor's sheen.

After 15 washings with CreteClean Plus with Scar Guard, the improvement in the floor's sheen is magnified even further.

After 30 washings with CreteClean Plus with Scar Guard, the reflectivity of the sheen is increased significantly.

Here is a before and after photo of the floor after 30 washings. The improvement in the floors' sheen is significantly brighter and more
